FFC

About

Founded in 2004, Fashion Fights Cancer is a 501(c)(3) non-profit organization that offers innovative and therapeutic programs in fashion and design. Our mission is to nurture the minds, bodies, and souls of cancer patients and survivors through fashion and design oriented activities while supporting all communities that deal with mental health.

FFC was founded to act as a sanctuary for cancer patients, survivors, and their loved ones.

In collaboration with local communities, impactful brands, hospitals, therapists and international fashion houses, FFC seeks to empower those who have been affected by the devastating illness of cancer in any way, shape or form throughout the United States and internationally.

FASHION FIGHTS CANCER

WORDS FROM OUR SUPPORTERS:

I think it's important to do whatever you can to help. There are obviously so many organizations that give money to cancer research, but I think it's important to try to nourish patients and enrich their lives while they're going through the process."

PAMELA LOVE

JEWELRY DESIGNER

Fashion Fights Cancer is such an amazing and inspiring organization when it comes to helping cancer patients and survivors enrich their minds and body. When I learned about all of the great opportunities the FCC has to offer, I couldn't wait to get involved.

CHRISTIAN SIRIANO

FASHION DESIGNER
